SUMMARY

Third-year B.Tech Computer Science & Engineering student interested in full-stack development, AI/ML, data analytics, and cybersecurity. Experience building responsive web applications and practical AI-driven tools using Python, JavaScript, and machine learning libraries. Seeking an internship or entry-level opportunity to apply technical skills to real-world problems.

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, HTML, CSS

Web & Backend: Frontend Development, Flask

Data & AI/ML: Data Analytics, Machine Learning, AI Agents, Prompt Engineering

Tools & Platforms: Git, GitHub, Azure, SQLite

PROJECTS

StepUp Study | Goal-Based Study Planner

- Built a goal-based study planner that analyzes historical exam data to estimate topic frequency and weightage.
- Identifies and ranks important topics to help students prioritize preparation based on their target goals.
- Developed a study-tracking dashboard to display progress across subjects and topics.

Personal Portfolio Website

- Designed and developed a personal portfolio using HTML, CSS, and JavaScript to showcase projects, skills, profile, and certifications.
- Applied semantic HTML, CSS styling, and JavaScript interactivity to create an easy-to-navigate experience.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering
Dr. A.P.J. Abdul Kalam Technical University | Expected April 2028|

- Class XII | RBSE Board | 69%
- Class X | RBSE Board | 88%

CERTIFICATIONS

5-Day Intensive AI Agents Course — Kaggle × Google (2025)

- Learned AI agents, agentic workflows, and LLM-based applications.
- Explored agent development, tools, and multi-agent systems.
- Gained knowledge of building and deploying AI agent solutions.

Data Analytics — CoForage (2025)

- Studied data analysis, visualization, and analytical problem-solving.

C++ Essentials 1 — Cisco Networking Academy (2026)

- Studied C++ data types, control structures, functions, and object-oriented programming.
